SUBJECT: JTA SYSTEM VERSION 4.32.0 PATCH

The purpose of this information bulletin is to inform you that the Workforce Investment Division (WID) will release the Job Training Automation (JTA) System Version 4.32.0 Patch.

We are now completing the JTA system change on soft exits announced in the Workforce Investment Act (WIA) Information Bulletin [WIAB03-87](#), June 8, 2004. Now all users are required to enter an "Estimated End Date" for all client activities. This edit check applies to current participants.

This new programming is considered a patch not requiring a full build of the application. This patch will be installed on Friday, November 5, 2004. This patch includes the addition of a new edit to the Enter WIA Enrollment/Registration Form (EWIE), Extract WIA Data (XWID), Load WIA Activity (LWIA), and Enter WIA Exit Form (EWIT) programs.

Should you have any questions regarding this JTA system release, please call the JTA Help Desk at (916) 653-0202.
